SUMMARY

Current college student studying AI in Business at Arizona State University with hands-on experience building React, TypeScript, and Next.js web applications as a freelance developer. Seeking opportunities in tech, data, and AI where I can write code and work on AI-driven projects.

EXPERIENCE

Self-Employed — Remote

Freelance Software Developer — May 2026 – Present

- Build and debug React, TypeScript, and Next.js web applications for clients
- Develop Python scripts for web scraping and task automation
- Deliver clean, documented code with clear communication and confirmed scope up front

Spinato's — Tempe, AZ

Food Preparation (Part-Time, On-Site) — June 8, 2025 – Present

- Prepare food to the highest quality standards
- Prioritize customer service in all tasks
- Maintain a clean and organized station at all times
